While I have done my best to make the list as comprehensive as possible, there could be some clinics which are not listed. In addition, this specific list is not to be inferred as any endorsement from myself or the EAIFO of the above referenced clinics; it is simply a reference list for your consideration. Though, having attended most of them, I am happy to provide any insight you feel would be helpful to guide you on which you wish to or not to attend based on your personal development strategy and objectives.
